

S&S activewear wholesale catalog

SS activewear series / S&S activewear wholesale catalog

The fabric quality for this SS series activewear composition of 80% nylon and 20% spandex looks the same as NULS fabric quality, but the fabric characteristics are different due to different weaving techniques. This fabric inherits NULS lightness and has certain supporting/sharpwear effect. It is usually used in yoga and training beginner clothing products with high yield/productivity and high-cost performance, which is more suitable for making running big quantity orders.
